FORTY YEARS OF
MEDICAL DEVICE EXPERIENCE

AMETEK Engineered Medical Components brings over 40 years of experience in the design, engineering, manufacturing and delivery of some of the world's most challenging medical device applications.

When you work with AMETEK, our cross-functional experts become an extension of your team, delivering proactive solutions and global resources—where and when you need them.

With flexible, fully-integrated capabilities across consumables, disposables and capital equipment, AMETEK is the one company that medical device makers around the globe confidently turn to for...*Expertise. On demand.*

EXPERTISE.

COLLABORATIVE DESIGN

AMETEK bridges the technology-solution gap that often exists between big ideas and successfully manufactured products.

- We have leading experts in cable design, contact configuration, insert molding, laser machining, and much more ready to assist you.
- A collaborative approach between your team and ours helps deliver optimum application performance at the lowest (system) cost.

■ **Concept Development | Prototyping | Design for Manufacturability | Material Selection**

PRECISION ENGINEERING

AMETEK offers the precision engineering expertise to support customers in the development and manufacture of the most demanding applications.

- Our application engineers are experienced in a wide range of technologies, including cardiac rhythm management, neurological stimulation and much more.
- AMETEK has the expertise to precision engineer both reusable and disposable products, as well as capital equipment.

■ **Collaborative Design | Customized Solutions | Integrated Approach | Quick Response**

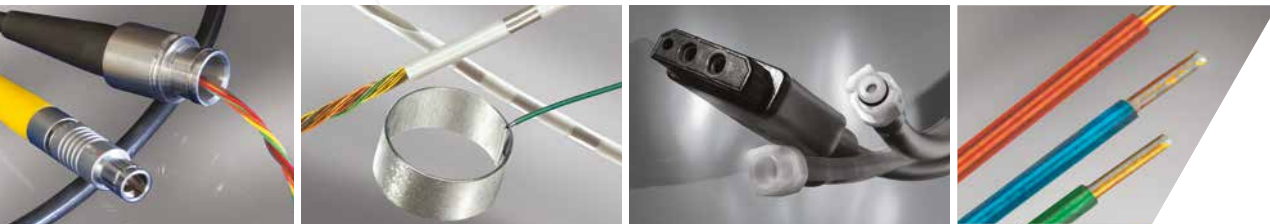

GLOBAL MANUFACTURING

With multiple facilities worldwide, AMETEK EMC manufactures both fully packaged products and individual components on a global scale.

- We have proven our commitment to quality by registering ISO 9001:2008 and ISO 13485:2003 at all of our FDA-registered manufacturing facilities.
- Our manufacturing experts and process engineers will partner with you to ensure effective and efficient production control.

CUSTOMIZED DELIVERY

AMETEK provides customized delivery and streamlined global supply chain management to meet the most demanding timelines.

- Our materials group implements on-site consigned inventories and other customized logistical services to facilitate fast, cost effective delivery.
- AMETEK's global footprint ensures more efficient sourcing, manufacturing and distribution functions.

▀ **Globally Integrated Supply Network | Customized Inventory Management | Logistics Optimization**

In today's intensely competitive medical device industry, we understand getting questions answered, problems solved and deadlines met is critical to your success.

At AMETEK we are known for timely, responsive service and uncompromising quality. We are big enough to handle any project, yet nimble enough to get it done on schedule and on budget.

With dedicated cross-functional specialists working as an extension of your team, we focus on meeting your timelines and objectives throughout the product life cycle, giving you instant expertise, when you need it.

ON DEMAND.

Headquartered in the heart of the medical device world,
AMETEK has built a reputation among customers
around the globe for uncompromising quality,
continuous improvement and unparalleled
customer service.
